Development Application Fees

These explanatory notes relate to Council's approved fee schedule for the Development Assessment functions for the Moreton Bay Region.

The schedule will apply to all applications for assessment of Material Change of Use, Reconfiguring a Lot, Building Work and Operational Work development applications made to Council under the requirements of the Moreton Bay Regional Council Planning Scheme and the *Planning Act 2016*.

Section 1: How to use this schedule

While some fees are particular to certain types of development applications, others are particular to an aspect associated with a development approval or are for a service provided by Council.

1.1 Development Applications (does not include applications referred to Council as a Concurrence Agency)

For applications to be lodged with Council under the development assessment process, using this fees and charges schedule is a 4 step process. The total assessment fee can only be determined by undertaking each of these steps in order.

- Step 1 - Determine the proposed form of development. As an example, for a Material Change of Use proposal this involves a determination on how the proposed change of use is defined in the Moreton Bay Regional Council planning scheme.
- Step 2 - Determine the level of assessment for the proposed development and scale of the use.
- Step 3 - Determine the base fee.
- Step 4 - Determine whether a fee variation is applicable.

The base fee may be modified by a fee variation.

Examples of fee variations are;

- the application of a Multiplication Factor required to be applied to the base fee.
- the application of an Alternative Fee when certain criteria apply.

Section 2 of this schedule sets out the circumstances of when a fee variation applies.

1.2 Non-PAct Applications (includes applications referred to Council as a Concurrence Agency)

For applications to be lodged with Council not under the development assessment process, using this fees and charges schedule is a 2 step process. The total assessment fee can only be determined by undertaking each of these steps in order.

- Step 1 - Determine the nature of the application or service sought or required.
- Step 2 - Determine the base fee.

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Section 2: Land Use Categories and Fees and Charges Definitions

For the purposes of the Fees and Charges only, all land uses have been grouped into a Category. Those Categories are set out below and are necessary to establish the applicable fee for any Material Change of Use application.

In some instances the Fees and Charges use terms or acronyms to determine the applicable fee. The terms and acronyms are set out as follows;

Gross Floor Area	is as defined by the Moreton Bay Regional Council Planning Scheme.	
Major for the [purposes of an Operational Works application only	is a Sub-Arterial Standard or greater of road as identified on the Road Hierarchy Map in the Moreton Bay Regional Council Planning Scheme.	
Private Pontoon	Is as defined in the <i>Coastal Protection and Management Act 1995</i>	
TUA (Total Use Area)	includes GFA and any part of the site used for external display, storage and activities/operations associated with the use but excluding car parking, vehicle manoeuvring areas, landscaping and areas of native vegetation to remain as a part of the development with the following use specific qualifications:	
	- Educational Establishment:	TUA does not include sports oval(s) or field(s) however does include courtyards, areas associated with assembly, tuckshops, meal breaks, open air teaching, swimming pools and the like.
	- Rural Uses Category	TUA does not include the areas of a site used for the planting of trees, plants or the like in an open area (for example the area of a site used for the non intensive planting of vegetable is not included however any packing sheds, storage sheds, cool rooms and the like would be included). TUA does not include the areas of a site used for the open, non intensive grazing or keeping of animals (for example the area of a site used for the open grazing of animals is not included whereas the keeping of animals in confined paddocks associated with a feedlot is included).
	- Outdoor Sport and Recreation:	TUA does not include outside and uncovered sports ovals, fields, golfing greens, courts, or the like.

Moreton Bay Regional Council Planning Scheme

Section 4: Fee Variations

4.1 Factors

Factors are multipliers applied to a base fee that can either increase or decrease a base fee applicable to a development proposal. Factors are in most instances applied based on the nature or type of an application. The following factors are to be applied to the calculated base application fee.

Where a development application is proposed to be submitted for multiple land uses and;

- (a) all land uses are contained in the same single Category as stated in section 2, however one or more of the land uses are impact assessable for example, the multiplication factor below will apply to the total GFA or TUA of the development proposal even if some of the uses are only Code Assessable; or
- (b) some land uses are contained in one category and other land uses are contained in a separate category and a land use in one of the Categories is impact assessable for example, the multiplication factor below will apply to the total GFA or TUA of the development proposal in the Category containing the impact assessable land use whereas the total GFA or TUA of the development proposal in the Category not containing an impact assessable land use will not have the multiplier applied to it.

FEE VARIATIONS		
Base Fee Multiplier		
1	For the component of a Development Application seeking a Preliminary Approval for a variation request under s61 of PA for a specific land use	1.5
2	For the component of a Development Application seeking a Development Permit as Impact Assessable development	1.3
3	For the component of a Development Application seeking a Development Permit as Code Assessable Assessment	1.0
4	For the assessment of a development proposal to confirm it is Accepted development	0.5
5	For the assessment of MB+ Operational Works applications	0.5

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

4.2 Variation Request

For applications for approval variation request made pursuant to section 61 of the *Planning Act 2016*, the assessment fee is:

- (i) For a specific land use or subdivision proposal, the multiplier stated in section 4.1 above for the sum of all component parts that would be applicable if a development permit was applied for; or
- (ii) If the proposal only involves a change to the applicable assessment level of the relevant Planning Scheme and no new or changes to the applicable planning scheme codes are proposed, then a standard fee as set out in section 4.3 below shall apply; or
- (iii) If the proposal involves substantial changes to the Planning Scheme including for example the introduction of new Codes and/or Levels of Assessment Tables, the fee as set out in section 4.3 below shall apply.

For applications seeking a Preliminary Approval for Material Change of Use – Code Assessment required as part of a condition of an earlier Preliminary Approval, the assessment fee is as set out in Fees and Charges Register.

It should be noted that subsequent application for development permits will attract the standard applicable fee, unless otherwise approved by the Director Planning & Economic Development or Manager Development Services taking into account the previous preliminary approval, nature and extent of the proposed development, the site and any other relevant matters including likely resources required to complete the assessment.

4.3 Alternative Fees

Based on the nature and/or type of some Development Applications an alternative fee will apply. Where a Development Application complies with any one of the following, the Alternative Base Fee will apply instead. This section however does not apply to a Development Application for Building Works (not associated with a Material Change of Use)

Alternative Base Fee based on Application Type		
6	For a Development Application that became Code Assessable development due to non compliance with <u>up to 2</u> Requirements for Accepted Development (RAD) in the applicable codes (other than Landing and Operational Works (Advertising Device or Excavation and/or Filling or Extracting Materials - Minor) where the Base Fee continues to apply).	\$1,821.00
7	For a Development Application that became Code Assessable development due to non compliance with <u>between 3 to 5</u> Requirements of Accepted Development (RAD) in the applicable codes (other than Landing, Domestic Uses and Operational Works (Advertising Device or Excavation and/or Filling or Extracting Materials) where the Base Fee continues to apply).*	\$2,601.00
8	For the component of a Development Application seeking a Preliminary Approval for a variation request to vary the effects of the Planning Scheme such as a zone change or change to a level of assessment table and not specific to a land use or type of development without significant changes to any Codes.	\$5,202.00

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Alternative Base Fee based on Application Type

Alternative Base Fee based on Application Type		
9	For the component of a Development Application seeking a Preliminary Approval for a variation request to vary the effects of the Planning Scheme substantially with substantial changes to Codes and/or assessment tables, new Codes and/or assessment tables and the like.	Price on Application
10	For the component of a Development Application seeking a Code Assessable Development Permit for a Material Change of Use for Residential Purposes as a requirement of a Preliminary Approval applying to the land given under s3.1.6 of the repealed IPA or s242 of SPA.	\$2,361.00

*When a development application does not comply with 6 or more Self Assessable Outcomes, the standard Base Fee will apply.

4.4 Change to Development Applications

If an application is changed in a manner that increases the applicable fee before it is decided by the Assessment Manager, then the applicable additional fees shall be payable prior to the application being decided. E.g. An increase in the number of lots for a Reconfiguring a Lot, or for a Material Change of Use a change or increase in the number of uses within the development.

4.5 Charitable or Community Organisations

Refer to Council's policy.

4.6 Inappropriate Fee

Where the scheduled fee is demonstrated to be inappropriate for the particular application, the Director Planning & Economic Development or Manager Development Services will determine the fee.

Section 5: Technical Notes

5.1 Reconfiguring a Lot

The fee per allotment applies to all lots INCLUDING the Balance Area (excluding Park, Roads, Town Planning Purpose Land, Community Purpose Land and Drainage Reserve). A guide on how to calculate the applicable fee for some example applications is set out below;

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Material Change of Use	For all land uses other than those specifically stated			Scale of development				
	Small	Medium	Large	upto 2	3-10	11-50	51-250	251+

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

5.2 Combined Material Change of Use Applications

For combined Material Change of Use applications that seek more than one (1) land use category, e.g. a mixed use development incorporating a Multiple Dwelling and Shop component, the assessment fee is 100% of the primary use (the highest fee), plus 75% of each other use.

Therefore, the total fees shall be the sum of fees for all uses applicable to the development application.

5.3 Definitions and Abbreviations

Terms used in this schedule have the same meaning assigned to them by the Moreton Bay Regional Council Planning Scheme and *Planning Act 2016*.

5.4 GST

GST is not applicable to development applications charged under the *Planning Act 2016*.

5.5 Negotiated Decisions

No additional assessment fee applies to requests for negotiated decisions.

5.6 Non-prescribed Fees and Undefined Uses

For undefined uses or uses for which no assessment fee is specified in this schedule, the assessment fee will be determined by the Director Planning & Economic Development or the Manager Development Services having regard to the likely total cost to Council of the assessment of the application, including comparison with the fee prescribed for similar or comparable uses. Requests for such determination must be made in writing prior to the lodgement of the application.

5.7 Payment of Fees

Full payment of the assessment fee must be made at the time of application lodgement. Council will not accept applications that are not accompanied by the full payment of assessment fees.

5.8 Payment of Fees by Credit Card

Where payments for development application fees or infrastructure charges are made by credit card, a merchant service fee recovery surcharge of 0.4% will apply to these payments.

5.9 Planning and Development Certificates

Limited, Standard and Full Planning and Development Certificates are charged on a per property basis (rates assessment). One property may comprise a single allotment or a number of allotments - refer to the rates assessment.

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

5.10 Changes to Development Approvals

Minor change to development approval as defined under the *Planning Act 2016*

The maximum fee is 50% of the original application fee unless the proposed change is inconsequential (eg involves less than 5 conditions, does not involve an increase in the number lots, does not involve an increase in the use area), where the minimum fee for the inconsequential changes is the lesser of 50% of the original application fee or \$2,408.00. The actual fee is to be determined by the Director Planning and Economic Development or the Manager Development Services taking into account the nature and extent of the change and the likely resourcing required to complete the assessment

Change to development approval (other) under section 82 of the *Planning Act 2016*

The fee is 100% of the application fee calculated as if the application were a new application for the extent of development proposed by the change to the approval only.

For example if the application is for a 1000m² GFA extension to an existing 6000m² GFA Educational Establishment which requires public notification the fee would be calculated as follows:

Community/Infrastructure 1000m² GFA = \$9000 x 1.3 = \$11,700.

Section 6: Fee Refunds

6.1 Refund requirements for Withdrawn, Decided or Lapsed Development Applications

Once a development application has been made to Council, an applicant can request a partial assessment fee refund. To qualify for a partial assessment fee refund, an applicant must provide written notice to Council of their withdrawal of their application pursuant to Planning Act 2016.

The Director Planning and Economic Development and Manager Development Services may consider partial refund of fees (or transfer of fees) for lapsed applications where a request is made depending on the stage at which the application lapsed or where an identical application is lodged in substitution of the lapsed application.

In the case of lapsed applications where the applicant resubmits the same application within three (3) months, the Director Planning and Economic Development or Manager Development Services may transfer the relevant fee paid to the fresh application.

Refunds are made as a percentage of the original assessment fee paid by the applicant at the time of lodgement.

Refunds are made in accordance with the following table:

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Application Stage	% Refund
Application (up to end of stage as defined by Development Assessment Rules)	85%
Information and Referral (up to end of stage as defined by Development Assessment Rules)	50%
Notification (up to end of stage as defined by Development Assessment Rules)	25%
Decision (up to and including when the report is completed prior to decision)	10%
After decision made	Nil

An administration fee is not charged for refunds referred to above as the administration fee is included.

If an application is changed in a manner that reduces the applicable fee before it is decided by the Assessment Manager, a percentage of the application fees paid may be refunded depending on the assessment stage at the time of change and the assessment involved up to that time.

Applications received by Council for Non PAct enquiries such as accepted development, compliance checks and written advice requests, will incur a refund administration fee in accordance with the prescribed fee detailed in Council's fees and charges schedule.

6.2 Refund requirements for Overpaid Development Application Fees

Council will charge an administration fee for the processing of a request for a partial assessment fee refund where a refund is due to an overpayment of fees or overpayment of infrastructure contributions.

6.3 Refund requirements for Planning and Development Certificates

Once a request for a Planning and Development Certificate has been made to Council, an applicant can request a partial fee refund. To qualify for a partial fee refund, an applicant must provide written notice to Council of their withdrawal request. Requests for partial fee refunds for completed Planning & Development Certificates will not be granted under any circumstances. The fee to be refunded will be determined by the Director Planning and Economic Development or Manager Development Services depending upon the amount of work completed.

6.4 Refund requirements regarding Food Businesses and Personal Appearance Services

Once an application for assessment has been made to Council under the Food Act 2006 or Public Health (Infection Control for Personal Appearance Services) Act 2003, an applicant can request a partial assessment fee refund. To qualify for a partial fee refund an applicant must provide written notice to Council of withdrawal of their application. Refunds are made as a percentage of the original application assessment fee paid by the applicant at the time of lodgement.

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Refunds are made in accordance with the following table:

Application Assessment Stage	% Refund
Prior to assessment and/or approval of plans	100% less administration fee
After plans approval and prior to 1 st inspection	60%
After 1 st inspection and prior to 2 nd inspection	40%
After 2 nd inspection and prior to decision	20%
After decision	Nil

An Administration Fee is not charged for 60%, 40% and 20% refunds referred to above as the administration fee is included.

Section 7: Operational works in Association with Reconfiguring Lots

The application fee shall cover:

- the processing of the first set of engineering drawings once only;
- three (3) inspections by Council's Engineer of roadworks and drainage.

When Engineering Drawings are presented for approval and they are unsatisfactory because:

- the Applicant, after presenting those drawings, chooses to consider another street or allotment layout (e.g. due to problems identified during the checking process);
or
- the principles set out in Council's Local Laws, Policies or Design Manual have not been complied with to a significant extent; or
- a previous set of engineering drawings has been approved by Council and numerous amendments are now required to the original drawings.

Then an additional fee shall be paid by the Applicant prior to the checking and/or approval of those drawings.

MBRC Schedule of Fees and Charges 2018 / 2019

Moreton Bay Regional Council Planning Scheme

Section 8: Operational works (other than Reconfiguring a Lot)

Operational Works may include advertising signs, landscaping, filling, excavation, roadworks, stormwater drainage and other associated works including the provision of new services, diversions, modification, alteration and/or replacement of existing services.

Section 9: Development Applications within the North Lakes Development Area (within the Mango Hill Infrastructure Development Control Plan)

Fees for Code Assessable development for a Material Change of Use within the North Lakes Development Area shall be in accordance with the schedule as identified within the section relating to North Lakes. Whereas, development applications for Reconfiguring a Lot, Impact Assessable Material Change of use where a fee is not included within this section of the schedule dealing with North Lakes, then the regional fee in accordance with the schedule shall apply.

Section 10: Infrastructure Charges

Infrastructure charges are imposed in accordance with the Infrastructure Charges Resolution.

The Moreton Bay Regional Council Infrastructure Resolution is available on Council's website. In some instances conditions of existing Development Approvals or Infrastructure Agreements are relevant to the calculation of Infrastructure Charges.
