## **Executive Summary**

This report seeks the consideration and adoption of the amended Audit Committee - Terms of Reference, as appearing in the supporting information to this report.

## **COMMITTEE RECOMMENDATION**

Moved by Cr Adrian Raedel Seconded by Cr Koliana Winchester

**CARRIED 11/0** 

That the Audit Committee Terms of Reference be adopted.

PAGE 18/1264 Report

ITEM 1.1 AUDIT COMMITTEE - TERMS OF REFERENCE - REGIONAL - A17015566 (Cont.)

#### OFFICER'S RECOMMENDATION

That the Audit Committee Terms of Reference be adopted.

#### REPORT DETAIL

#### 1. Background

In accordance with the review triggers, the Audit Committee - Policy and Terms of Reference have been reviewed to ensure relevance and effectiveness is maintained.

The Audit Committee considered the revised Terms of Reference at its meeting held 30 May 2018 subsequently recommending them to the Council for adoption. The revised Terms of Reference are contained in the supporting information to this report.

#### 2. Explanation of Item

The Terms of Reference is designed to assist the Council in fulfilling its corporate governance role and oversight of financial management and reporting responsibilities imposed under the *Local Government Act* 2009, the Local Government Regulation 2012 and other relevant legislation.

The Terms of Reference is to be reviewed at least annually. This review is to include consultation with the Chief Executive Officer.

A comprehensive review was undertaken having regard to the following:

- Drafting of the Audit Committee Induction Pack
- Internal Audit of Conflicts of Interest
- Results of the Audit Committee Self-Assessment Questionnaire
- Better Practice Guide: Public Sector Internal Audit An Investment in Assurance and Business
- Improvement issued by the Australian National Audit Office in September 2012, and
- Audit Committee Guidelines Improving Accountability and Performance issued by the Queensland Government in June 2012.

#### 3. Strategic Implications

#### 3.1 <u>Legislative/Legal Implications</u>

The Terms of Reference has been reviewed in accordance with the *Local Government Act 2009* and the Local Government Regulation 2012 and other relevant legislation.

#### 3.2 Corporate Plan / Operational Plan

Strengthening Communities: Strong local governance - strong leadership and governance.

#### 3.3 Policy Implications

Following adoption, the amended Terms of Reference will be placed on embarc (intranet) and Council's website.

#### 3.4 Risk Management Implications

There are no risk management implications arising as a direct result of this report.

#### 3.5 Delegated Authority Implications

There are no delegated authority implications arising as a direct result of this report.

#### 3.6 Financial Implications

There are no financial implications arising as a direct result of this report.

# **Moreton Bay Regional Council**

COORDINATION COMMITTEE MEETING 12 June 2018

PAGE 18/1265 Report

ITEM 1.1 AUDIT COMMITTEE - TERMS OF REFERENCE - REGIONAL - A17015566 (Cont.)

#### 3.7 Economic Benefit

There are no economic benefit implications arising as a direct result of this report.

#### 3.8 Environmental Implications

There are no environmental implications arising as a direct result of this report.

# 3.9 Social Implications

There are no social implications arising as a direct result of this report.

# 3.10 Consultation / Communication

Consultation has been undertaken with Council's Audit Committee, Chief Executive Officer and relevant departmental officers.

# **ATTENDANCE**

Ms Kate Isles and Mr Tom Auckland attended the meeting at 10.44am for discussion on Item 2.1.

# 2 PLANNING & DEVELOPMENT SESSION

(Cr M Gillam)

APPLICATION DETAILS		
Applicant:	Boland Cranes C/- JFP Urban Consultants Pty Ltd	
Lodgement Date:	26 June 2017	
Properly Made Date:	10 August 2017	
Confirmation Notice Date:	22 August 2017	
Information Request Date:	6 September 2017	
Info Response Received Date:	6 February 2018	
Public Notification Dates:	15 February 2018 - 8 March 2018	
No. of Submissions:	Properly Made: Two (2) Not Properly Made: Zero (0)	
Decision Due Date:	14 June 2018 (by agreement)	
Prelodgement Meeting Held:	PRE/2718	

PROPERTY DETAILS		
Division: Division 1		
Property Address:	310 Old Toorbul Point Road, Caboolture	
RP Description	Lot 48 RP 197137	
Land Area:	20,030 M <sup>2</sup>	
Property Owner	Wexboland Pty Ltd	

STATUTORY DETAILS		
Planning Legislation:	Sustainable Planning Act 2009	
Planning Scheme:	MBRC Planning Scheme	
Planning Locality / Zone	Rural Residential Zone	
Level of Assessment:	Impact Assessable	

This application seeks Material Change of Use - Development Permit for Transport Depot and ancillary Office situated at the abovementioned property. It is proposed to establish a Transport Depot on site with a total use area is 1500m<sup>2</sup>, which includes an existing shed, ancillary office, and outdoor storage areas.

The proposed Transport Depot caters for the following vehicles:

- One (1) Large Rigid Vehicle;
- One (1) Medium Rigid Vehicle; and
- Four (4) Cranes.

CONDI	TION	TIMING
MATER	RIAL CHANGE OF USE - DEVELOPMENT PERMIT	
4	Screen Fencing	
A	Construct a screen fence along the western boundary of the site, extending along from the front property boundary for at least 115m to screen the proposed use area from adjoining landowners. Unless an alternative design is agreed to with the owner of the adjoining land, the screen fence is to be 1.8 metres in height and constructed of treated timber,	
5	Water	
	Submit to Council a Certificate of Completion or Provisional Certificate of Completion for the development from the Northern SEQ Distributor–Retailer Authority (Unitywater) confirming:  1. a reticulated water supply network connection is available to the land; and  2. all the requirements of Unitywater have been satisfied.	the use and to be maintained at all times.
6	No Clearing On Site	
	Ensure no native vegetation clearing occurs as part of the approved use.	Prior to the commencement of use and to be maintained at all times.
ENVIR	ONMENTAL HEALTH	
7	External Lighting	
	Install external lighting in accordance with AS4282-1997 - (Control of the Obtrusive Effects of Outdoor Lighting) or as amended.	Prior to commencement of use and to be maintained at all times.
8	Waste Management	
	Manage waste in accordance with SC 6.20 Planning Scheme Policy - Waste.	Prior to commencement of use and to be maintained at all times.
9	Premises Hours of Operation	
	Limit the hours of operation, including vehicles entering and leaving the site, to between 7am to 6pm Monday to Friday.	At all times.
DEVEL	OPMENT ENGINEERING	
10	Replace Existing Council Infrastructure	
	Replace existing Council infrastructure (including but not limited to street trees and footpaths) that is damaged as part of construction works, to a standard which is consistent with Council's standards.	
11	Alterations and Relocation of Existing Services	
	Any alteration or relocation in connection with or arising from the development to any service, installation, plant, equipment or other item belonging to or under the control of the telecommunications authority, electricity authorities, the Council or other person engaged	use.

MA	TEF	RIAL CHANGE OF USE - DEVELOPMENT PERMIT	
		Ensure that stormwater from the proposed development is lawfully discharged from the subject land without causing nuisance and annoyance to any person.	
17		Building Materials Below the Flood Planning Level	
	Α	Building works which are below the Flood Planning Level are to be constructed from materials with a high water resistance.	Prior to commencement of use
В		No filling is permitted within the area mapped as Medium/High risk flood hazard area under Council's Flood Hazard Overlay Code.	At all times
		Notes: 1. The Flood Planning Level used for development can be obtained from the relevant section of the Flood Check Development Report available via Council's website: www.moretonbay.qld.gov.au. The current Flood Planning Level for this site is RL7.4 AHD. 2. The Queensland Government Fact Sheet 'Rebuilding after a flood' provides information about water resilient products and building techniques. Available at www.hpw.qld.gov.au.	

ADV	ADVICES		
1	Aboriginal Cultural Heritage Act 2003		
	The Aboriginal Cultural Heritage Act 2003 commenced in Queensland on April 16, 2004. Under the Act, indigenous parties are key in assessing cultural heritage significance.		
	The Aboriginal Cultural Heritage Act 2003 establishes a Duty of Care for indigenous cultural heritage. This applies on all land and water, including freehold land. The Cultural Heritage Duty of Care lies with the person or entity conducting the activity.		
	Penalty provisions apply for failing to fulfil the Cultural Heritage Duty of Care.		
	Those proposing an activity that involves additional surface disturbance beyond that which has already occurred on the proposed site need to be mindful of the Duty of Care requirement.		
	Details of how to fulfill the Duty of Care are outlined in the Duty of Care Guidelines gazetted with the Act.		
	Council strongly advises that you contact the relevant state agency to obtain a copy of the Duty of Care Guidelines and further information on the responsibilities of developer under the terms of the Aboriginal Cultural Heritage Act 2003.		
2	Adopted Charges		
	Payment of an Adopted Infrastructure Charge in accordance with Council's Infrastructure Charges Resolution (No. 7) dated 11 December 2017 or as amended apply to this development approval.		
	From 1 July 2014, Moreton Bay Regional Council no longer issues an Infrastructure Charges Notice on behalf of Unitywater for water supply and sewerage networks and therefore a separate Infrastructure Charges Notice may be issued directly to the applicant by Unitywater in respect to this development approval.		

PAGE 18/1272 Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

ADVIC	ADVICES		
	Payment of Infrastructure Charges is to be in accordance with the Infrastructure Charges Notice issued with this development approval and any Infrastructure Charges Notice issued by Unitywater. From 1 July 2014, all Infrastructure Charges for infrastructure networks controlled by Unitywater (eg. water and/or sewerage) regardless of when the Infrastructure Charges Notice was issued are to be paid directly to Unitywater while Infrastructure Charges for networks controlled by Moreton Bay Regional Council will continue to be paid directly to Moreton Bay Regional Council.		
3	Building Works		
	The site is subject to Flooding constraints. It is advised that the Outbuilding to be used as part of this use should be subject to a Structural engineering design report in accordance with Planning Scheme Policy -Flood hazard, Coastal hazard and Overland flow and upgraded where required.		

- B. That the Council report for this application be published to the website as Council's statement of reasons in accordance with Section 63 (5) of the *Planning Act 2016*.
- C. That the following information be included in the Decision Notice.

# 2.2 Assessment Benchmarks related to the Planning Regulation 2017

The Planning Regulation 2017 (the Regulation) prescribes Assessment Benchmarks that the application must be carried out against, which are additional or alternative to the Assessment Benchmarks contained in Council's Planning Scheme.

These Assessment Benchmarks are prescribed as being contained in:

- the South East Queensland Regional Plan and Part E of the State Planning Policy; and
- Schedule 10 of the Regulation.

Applicable	State Planning Policy	
Assessment	State Planning Policy, Part E	
Benchmarks:		
	Regional Plan	
	South East Queensland Regional Plan	
SEQ Regional Plan Designation:	Regional Landscape and Rural Production Area	
Koala Habitat Designation:	Nil	

#### 2.2.1 State Planning Policy

A new State Planning Policy came into effect on 3 July 2017, and is not currently integrated into the MBRC Planning Scheme. The following assessment benchmarks are to be applied to the assessment of development applications until the State interests have been appropriately integrated into Council's planning scheme. Assessment against the SPP assessment benchmarks is as follows:

Assessment benchmark - livable communities				
Applicable to Development	SPP requirement	Comment		
No	None	Not Applicable		
Assessment be	Assessment benchmark - mining and extractive resources			
Applicable to Development	SPP requirement	Comment		
Yes No tick boxes	No	None		
Assessment benchmarks - water quality				
Applicable to Development	SPP requirement	Comment		
No	None	Not Applicable		
Assessment benchmarks - natural hazards, risk and resilience				
Applicable to Development	SPP Requirement	Comment		

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

Assessment be	enchmark - livable communities				
Yes	Bushfire, flood, landslide, storm tide inundation, and erosion prone areas outside the coastal management district:  (1) Development other than that assessed against (1) above, avoids natural hazard areas, or where it is not possible to avoid the natural hazard area, development mitigates the risks to people and property to an acceptable or tolerable level.  All natural hazard areas:  (2) Development supports and does not hinder disaster management response or recovery capacity and capabilities.  (3) Development directly, indirectly and cumulatively avoids an increase in the severity of the natural hazard and the potential for damage on the site or to other properties.  (4) Risks to public safety and the environment from the location of hazardous materials and the release of these materials as a result of a natural hazard are avoided.  (5) The natural processes and the protective function of landforms and the vegetation that can mitigate risks associated with the natural hazard are maintained or enhanced.	An assessment of the proposed development has been undertaken against the applicable SPP requirements and the proposal has been determined to comply.			
Assessment benchmarks - strategic airports and aviation facilities					
Applicable to Development	SPP Requirement	Comment			
No	None	Not Applicable			

#### 2.2.2 South East Queensland Regional Plan

The site is located in the Regional Landscape and Rural Production Area designation.

The development proposal is for a Material Change of Use in the Regional Landscape and Rural Production Area. An assessment against the applicable assessment criteria of the SEQRP has been undertaken, and the proposal is consistent.

# 2.3 <u>Assessment Against Local Categorising Instrument - Moreton Bay Regional Council Planning Scheme</u>

An assessment against the relevant parts of the planning scheme is set out below.

ITEM~2.1~DA/34696/2017/V2N-MATERIAL~CHANGE~OF~USE-DEVELOPMENT~PERMIT~FOR~TRANSPORT~DEPOT~AND~ANCILLARY~OFFICE-310~OLD~TOORBUL~POINT~ROAD,~CABOOLTURE~(LOT~48~RP~197137)-DIVISION~1-A16786356~(Cont.)

# 2.3.1 Strategic Framework

In accordance with section 1.7.2 of the planning scheme, the development proposal requires assessment against the Strategic Outcomes within the Strategic Framework. The applicable Strategic Outcomes under the Themes for the planning scheme are discussed as follows:

PLACE TYPE MODEL - COAST AND RIVERLANDS			
Strategic Outcome	Complies	Assessment	
Sustainability and Resilience			
Land within this place type is exposed to coastal hazards and is not suitable for urban development; and	Y	The proposed development, given the low vehicle numbers, scale and intensity of the use, does not constitute urban development. The proposed development is resilient to the hazards of the property.	
The area will be managed to allow the natural fluctuation of foreshore and associated ecosystems.	N/A	The development site is not located in proximity to the foreshore.	
Natural Environment and Landsca	•		
The integrity, condition and function of biodiversity and ecological processes within these areas are protected in perpetuity from the adverse impacts of development and land use activities;	Y	The proposed development does not extend the existing buildings into environmental areas. The development will not pose adverse impacts on the processes within the area.	
The visual character of regionally significant scenic amenity areas including major landscape features, and the visual relief and separation between urban areas provided by the network of waterways and coastal areas, is retained. Vegetated buffers and open space along foreshores are maintained and restored;	N/A	The development site is not located in a regionally significant scenic amenity area, nor along a foreshore. The proposed development remains of a scale that is consistent with the character of the Rural Residential Zone, and the immediate area.	
Existing natural areas, including the habitat of a range of threatened species, are enhanced and protected from the impacts of development;	Υ	The proposed development does not pose unreasonable risk or impacts on areas of environmental significance.	
The Coast and riverlands place type forms part of the green infrastructure network that traverses across public and private land to link to the Mountains, forests and waterways place type	Υ	The proposed development retains the existing flow path along the western boundary of the site. The development retains the existing level of green infrastructure across the site.	
The nature, scale and intensity of coastal activities are appropriate to the low key, low intensity, recreational, educational and	N/A	The proposed development does not include coastal activities, nor is the site located within the Coastal Planning Area.	

PLACE TYPE MODEL - COAST AND RIVERLANDS			
Strategic Outcome	Complies	Assessment	
environmental character and function of this area			
Activities in the Coast and	Υ	The proposed development does not	
riverlands place type are located, designed and managed to mitigate disturbance of acid sulfate soils and the mobilisation and release of nutrients of concern from nutrient hazard areas	•	propose earthworks or significant site works that would disturb acid sulfate soils or nutrient hazard areas.	
Sustainably managed land extensive or intensive rural uses are an integral component of the natural environment and landscape within this place type	N/A	The proposed use does not include land extensive or intensive rural uses.	
Theme - Strong Communities			
The place type provides a diverse range of active and passive outdoor sport and recreational opportunities for residents of the region and visitors	Υ	The proposed development does not preclude the wider place type from providing passive outdoor sport and recreation activities. The proposed use is contained wholly within privately owned property.	
The values of cultural heritage sites are maintained and enhanced	Y	The proposed development does not detract or impact on cultural heritage sties within the locality.	
The important contribution of the Coast and riverlands place type to the sense of place and identity of the Moreton Bay Region is identified, and reflected in the management of coastal activities and development within and adjacent to the place type	N/A	The proposed development does not include coastal activities or coastal development. The site is located within a Rural Residential/Industrial precinct. The proposed development does not impact on the sense of place or identity within the Moreton Bay Region.	
The parks and open space, sport and recreational facilities, boat ramps, jetties, board walks, bikeways, recreational trails and environmental centres and community facilities within this area provide low key informal and safe meeting places for community interaction	N/A	The proposed development does not impact on parks and open space areas. The proposed development is located wholly on privately owned land.	
Theme - Settlement Pattern and Urban Form			
The existing pattern of development within the place type is not intensified and in some locations building and rebuilding will not be possible;	Y	The proposed development uses existing buildings on the site. No additionally buildings are to be constructed. The overall pattern of development is maintained.	
Dispersed dwellings and farm buildings are predominant within	Y	The site will be a Dwelling house and Transport Depot, to be located in the	

PLACE TYPE MODEL - COAST AND RIVERLANDS			
Strategic Outcome	Complies	Assessment	
this place type, mostly on large rural allotments. Some small house lots also occur in this place type		existing outbuilding on site. The built form is consistent with the dispersed nature of the place type.	
Coastal activities are of a scale and nature that maintain the low key, dispersed water based and waterfront recreational and open space uses	N/A	The proposed development does not include coastal activities or is located in proximity to the waterfront.	
Development and coastal activities are limited to uses that are allied to and compatible with the long term protection of the areas environmental values and are not sensitive to hazard events	Υ	The proposed development does not compromise the environmental values or is sensitive to the hazards on subjected to the property.	
Land extensive or intensive rural uses are managed to maintain sustainable production from the land and to avoid degrading the significant conservation or scenic values or the integrity of the coast and waterways	N/A	The proposed development does not include land extensive or intensive rural uses.	
Theme - Employment Location			
Employment opportunities in this place type include low key, low impact recreational and tourism activities that serve the needs of residents and visitors to the region	Υ	The predominant employment opportunity within the place type conforms to recreation and tourism industries. The proposed development does not impact the establishment of these uses within the place type. The proposed development includes low key, low scale, low impact employment opportunities.	
Opportunities for innovative co location of sustainable rural enterprises in peri – urban areas will be considered where meeting ecological, economic and social objectives, whilst maintaining a character consistent with the attributes of the area.	Υ	The proposed development is a use that is located in the peri-urban area that does not impact the viability of other areas within region and does not compromise the attributes of the area. The proposed use does, given the scale and intensity, is consistent with the character of the immediate area.	
Theme - Natural Resources			
Development sustainably manages and does not adversely impact on the natural resources of the area including wetlands and waterways of Moreton Bay Marine Park, declared fish habitat areas, sand dune deposits, Agricultural land classification (ALC) Class A and Class B land and plantation forests	Y	The proposed development is not located in proximity to the Moreton Bay Marine Park, declared fish habitat areas, sand dune deposits, Agricultural land classification (ALC) Class A and Class B land. The proposed development does not compromise the plantation forests within proximity to the site.	

PLACE TYPE MODEL - COAST AND RIVERLANDS			
Strategic Outcome	Complies	Assessment	
The high levels of ecosystem services provided in this area are protected from development impacts.	Y	The proposed development will have negligible impacts on the ecosystems within the area, with appropriate site location and buffering to mapped environmental values.	
Theme - Integrated Transport			
An adequate level of service for road access is maintained for visitors to the area to provide safe access in areas susceptible to flooding and for use in emergencies	Y	The proposed development is afforded access to a Sub-Arterial Road. This is an appropriate level of access for the proposed use, aligning with the proposed movement of vehicles around to and from the site.	
Where appropriate, sealed roads to have adequate width to include linemarked shoulders to accommodate cyclists with particular attention to uphill sections.	N/A	The existing location of the road is not proposed to be changed as part of this application, nor is upgrading required. The area is not identified as requiring active transport additions.	
Theme - Infrastructure			
Limited infrastructure services are provided, and new infrastructure likely to be severely damaged in hazard events is avoided unless otherwise warranted	Y	The proposed development maintains the existing level of infrastructure that is provided on site. The existing infrastructure to the site provides a sufficient and adequate level of service to support the proposed use.	
Infrastructure, including public utilities and major telecommunication facilities, are designed and located to mitigate detrimental impacts on the visual quality and environmental values, character and amenity of the place type.	N/A	The proposed use does not include major public utilities or telecommunication facilities.	
Theme - Water Management			
Waterways, wetlands and coastal areas are enhanced and protected from degradation or loss of biodiversity values;	Y	The mapped waterway on site is maintained and protected through the proposed development. It is anticipated no degradation will occur from the development, with the environmental values retained.	
Development retains the natural hydrological characteristics of waterways, wetlands and coastal areas including groundwater, and mitigates disturbance of acid sulfate soils and the mobilisation and release of nutrients of concern from nutrient hazard areas;	Υ	The proposed development does not alter the hydrological characteristics of the site, maintaining areas of waterways and conveyance. The proposed development does not disturb acid sulfate soils.	
The risk of downstream or upstream shoreline, bed or bank erosion	Υ	The proposed development does not compromise shorelines either up or	

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

PLACE TYPE MODEL - COAST AND RIVERLANDS			
Strategic Outcome	Complies	Assessment	
through altered hydrology, development or unnatural disturbance is not increased		down stream with regards to erosion. No earthworks or ground disturbance is proposed as part of this development.	
Nutrient enrichment is avoided.	Y	The proposal does not increase or unduly impact nutrient enrichment of the area. The proposed use does not include nutrient enriching activities.	

#### 2.3.2 Assessment of Applicable Codes

#### **Code Compliance Summary**

The assessment below identifies how the development proposal achieves the assessment benchmarks and where the development proposal;

- (a) proposes an alternative 'Example' satisfying or not satisfying the corresponding Performance Outcome; and
- (b) proposes an outcome where no 'Example' is stated in the code and the proposed outcome does not satisfy the corresponding Performance Outcome.

Assessment Benchmarks	Compliance with Overall Outcomes	Performance Outcomes assessment is required	
Zone/ Local Plan Code			
Rural Residential Zone	☐ Yes	DO11 DO125	
Code	✓ No	PO11, PO135	
Overlay Codes			
Flood Hazard Overlay Code	<ul><li>✓ Yes</li><li>✓ No</li></ul>	PO11	

The assessment of the development proposal against the Performance Outcomes of the applicable code(s) is discussed below in section 2.3.3.

#### 2.3.3 Performance Outcome Assessment

Performance Outcome	Example
Rural Residential Zone Code	
P011	AO11
On-site car parking associated with an activity provides safe and convenient on-site parking and manoeuvring to meet anticipated parking demand.	On-site car parking is provided at a rate identified in Schedule 7 - Car parking.
Note - Refer to Planning scheme policy - Integrated transport assessment for guidance on how to achieve compliance with this outcome.	
Performance Outcome Assessment	

Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

#### **Performance Outcome**

#### **Example**

The applicant proposes an alternative outcome to Performance Outcome 11 of the Rural Residential Zone. It is proposed to have a car parking area on site, catering for at least four (4) staff car parks. In accordance with Schedule 7 of the MBRC Planning Scheme, the proposed development is required to provide seventeen (17) car spaces based on 1500m2 of total use area.

The proposed development is to be operated by the residents of the property, who will reside in the Dwelling house to be retained on the property. A maximum of two (2) additional employees are proposed to be working on site.

The proposed transport depot facilitates the hire of cranes in which cranes are either delivered to site or collected by the customer using a Medium or Large Rigid vehicle. In this, the site has a limited number of car based visitors associated with the Transport Depot, with the exception of the aforementioned additional staff members.

The recommendations of this report are to increase the provision of car parking to a total of four spaces (4). There is sufficient area to accommodate the two (2) additional spaces within the use area as well as over flow parking if required. Given there is sufficient space to accommodate vehicles on site, it is anticipated that no line marking will be required to occur. This number of car parking on site is expected to be sufficient to meet the anticipated demand for car parking on the site with the balance of the site available for over flow parking if required on an irregular basis.

The proposed alternative outcome is determined to be consistent with the Performance Outcome in this instance.

#### **PO135**

Development provides and maintains a suitable setback from waterways and wetlands that protects natural and environmental values. This is achieved by recognising and responding to the following matters:

- a. impact on fauna habitats;
- b. impact on wildlife corridors and connectivity;
- c. impact on stream integrity;
- d. impact of opportunities for revegetation and rehabilitation planting;
- e. edge effects.

### AO135

Development does not occur within:

- a. 50m from top of bank for W1 waterway and drainage line
- b. 30m from top of bank for W2 waterway and drainage line
- c. 20m from top of bank for W3 waterway and drainage line
- d. 100m from the edge of a Ramsar wetland, 50m from all other wetlands.

Note - W1, W2 and W3 waterway and drainage lines, and wetlands are mapped on Schedule 2, Section 2.5 Overlay Maps – Riparian and wetland setbacks.

# Performance Outcome Assessment

The applicant proposes an alternative outcome to Performance Outcome 135 of the Rural Residential Zone Code. It is proposed to locate the development within the 20m buffer for the mapped drainage line.

A formed drainage channel runs parallel with the western side boundary of the site. The drainage channel is largely cleared of vegetation with the only encroachment of the development is being the existing building and hardstand area. The proposed use area for the site is predominately located outside of the drainage channel buffer.

The development provides a suitable setback to the mapped drainage line on the property.

**PAGE 18/1280** 

COORDINATION COMMITTEE MEETING 12 June 2018

PAGE 18/1281 Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) -DIVISION 1 - A16786356 (Cont.)

#### **Performance Outcome**

#### **Example**

The proposed alternative is accepted in compliance with Performance Outcome 135 in this instance.

#### Flood Hazard Overlay Code

Development is resilient to a flood hazard event by ensuring design and built form account for the potential risks of the flood hazard event.

Note - New buildings within the High risk or Medium risk area will require a structural engineering design capable of withstanding the nature of the hazard(s) to which the building will be subject consistent with the requirements of the relevant building assessment provisions, to be supported by a report (or multiple reports) prepared by a Registered Professional Engineer Queensland that identifies the flood hazard and structural approach to utilised. Information on the flood hazard for individual sites is available on Council's Floodcheck website via https://www.moretonbay.gld.gov.au/floodcheck/.

Note - Reporting to be prepared in accordance with Planning scheme policy - Flood hazard, Coastal hazard and Overland flow.

#### AO11.2

Development ensures that the finished floor level is located, designed and constructed to at least the flood planning level in Table 8.2.2.3 'Flood planning level for a habitable floor (residential development) and a nonhabitable floor (non-residential development) and levels for hazardous chemicals'.

Note - New buildings within the High risk area or Medium risk area will require a structural engineering design capable of withstanding the nature of the hazard(s) to which the building will be subject consistent with the requirements of the relevant building assessment provisions, to be supported by a report (or multiple reports) prepared by a Registered Professional Engineer Queensland that identifies the flood hazard and the structural approach to be utilised. Information on the flood hazard for individual sites is available Council's Floodcheck website https://www.moretonbay.qld.gov.au/floodcheck/.

Note - Reporting to be prepared in accordance with Planning scheme policy - Flood hazard, Coastal hazard and Overland flow.

#### AO11.3

Development ensures that a fence is at least 50% permeable.

### Performance Outcome Assessment

The applicant proposes an alternative outcome to Performance Outcome 11 of the Flood Hazard Overlay Code. It is proposed to establish a non-habitable commercial space being an office within the existing Outbuilding (Shed) on site below the Flood Planning Level. Further, recommended conditions of approval include the requirement for a screen fence along the boundary of the site to be a 1.8m timber fence to reduce the visual impact of the development on adjoining properties.

The requirements of the code require development to meet the Flood Planning Level. The proposed development within the existing outbuilding does not conform to the required Flood Planning Level. The building is existing, as such, will not exasperate the existing situation on site, or increase the effects of flood on adjoining properties. The recommendations of this report include a condition requiring certification that the building utilises flood resistant materials below the flood planning level. Further, the recommended condition prohibits filling and earthworks on the property within the flood hazard area.

The recommendations of this report further include the provision of a 1.8m screen fence along the eastern boundary of the site. This is to maintain the residential amenity to the residential

ITEM~2.1~DA/34696/2017/V2N-MATERIAL~CHANGE~OF~USE-DEVELOPMENT~PERMIT~FOR~TRANSPORT~DEPOT~AND~ANCILLARY~OFFICE-310~OLD~TOORBUL~POINT~ROAD,~CABOOLTURE~(LOT~48~RP~197137)-DIVISION~1-A16786356~(Cont.)

Performance Outcome	Example

property to the east. The proposed fence extends for the extent of the proposed use area only, and will be unlikely to increase the effects of flooding to adjoining properties within the area. A 50% permeable fence is not required in this location.

The proposed development is determined to have a high degree of flood resilience, ensured through the recommended conditions of approval.

#### 2.3.4 Overall Outcome Assessment

The development proposal, while compliant with the Performance Outcomes, is impact assessable. As such, triggers assessment against the full MBRC Planning Scheme. An assessment of the Overall Outcomes of the Rural Residential Zone Code is included below.

6.2.11.2 - Rural Residential Zone Code				
Overall Outcomes		Complies Y/N Comments		
Α.	A range of larger lots used primarily for residential (lifestyle) activities with limited provision of infrastructure. Residential uses are limited to a single dwelling house(22)per allotment. A secondary dwelling is permitted provided it functions and appears subordinate to the principal dwelling house	Y	The proposed development maintains the Rural Residential Character of the area, with predominantly large allotments with residential uses.	
B.	The ongoing operation of existing rural uses and primary production activities is retained. Rural uses and primary production activities establish where they do not adversely impact on the use, character and amenity values of adjoining properties.	N/A	The proposed lot is not currently used for Rural Activities or Primary Production. The proposed use does not preclude primary production uses occurring elsewhere within the Zone.	
C.	Development maintains a distinct and recognisable transition between more intensively urbanised areas of the region, and the region's largely undeveloped rural hinterland.	Y	The proposed development does not significantly alter the character of the immediate area, retaining a recognizable transition between urban land and undeveloped rural land.	
D.	Development does not detrimentally impact upon the low density, low intensity and open area character and amenity associated with the Rural residential zone.	Y	The proposed development is limited to a scale that is consistent with the intended Rural Residential Character, through conditions of approval. The proposed will not have significant amenity impacts on the adjoining landowners.	
E.	Development does not fragment, pre-empt or compromise the potential for development in areas identified as potential future growth fronts for urban purposes beyond the life of the planning scheme.	Υ	The proposal does not fragment land or compromise development areas. The site is note noted as a future development area.	

6.2.11.2 - Rural Residential Zone Co			
Overall Outcomes	Complies Y/N	Comments	
F. Development does not adversely affect the operation of aviation facilities at Mt Glorious (See Overlay map - Infrastructure buffers). This aviation facility comprise a VHF beacon.	N/A	The proposed development is not located in proximity to Mt Glorious.	
G. Home based business(35) establish where the scale and intensity of the activity does not detrimentally impact upon the low density, low intensity and open area character and amenity associated with the Rural residential zone.	N/A	The proposed use does not include a Home Based Business.	
H. Retail and commercial activity group uses establish within existing Neighbourhood Hubs (see Overlay map - Community activities and neighbourhood hubs). Redevelopment or development within existing Neighbourhood Hubs occurs where:  i. development does not result in nuisance or amenity impacts on adjoining residents or the wider streetscape;  ii. development is small scale, low intensity and consistent with the rural residential character and amenity associated with the particular Neighbourhood hub; and  iii. development associated with retail and commercial activity group activities does not involve the expansion of existing Neighbourhood hubs onto adjoining lots.	N/A	The proposed development does not include a Retail and Commercial uses as defined within the Defined Activities within the Planning Scheme.	
I. Community activity group uses establish within existing Community Activities locations (see Overlay map - Community activities and neighbourhood hubs). Community activity group activities may only establish on lots that immediately adjoin existing Community activities and neigbourhood hubs only. Redevelopment or development within existing Community Activities locations, or on lots	N/A	The proposed development does not include a Community Activity Group use, as identified within the defined activity groups.	

6.2.11.2 - Rural Residential Zone Code				
Overall Outcomes		Complies Y/N	Comments	
hubs occurs where: i. development does in nuisance of impacts on	eighbourhood s not result r amenity adjoining the wider small scale, consistent residential amenity			
J. Development gene volumes of traffic heavy vehicle traffic are located on roads and capacity to a traffic demand.	or involving movements of a standard	Y	The proposed development includes conditions limiting the number of vehicle movements and types of vehicles permitted on the site. This limits vehicle activity to and from the site to a level that is commensurate with the intended character of the area. The proposed use is located on a Sub-Arterial road, consistent with the level of vehicle movements.	
K. Development does the establishment activities.		N	The proposed use includes the establishment of an Industrial Use. Despite the scale, the proposed use does not comply with Overall Outcome K.	
L. General works ass the development a following:				
i. a high standard of telecommunications sewerage, water street lighting s provided to new d to meet the curren needs of users of th	s, roads, supply and services is levelopments and future	Y	The proposal is connected to an adequate level of infrastructure to service the development	
stormwater to:  A. ensure the c stormwater adversely affec environmental	does not ct the quality, values or unctions of receiving stormwater and the	Y	The proposed development manages stormwater appropriately, consistent with the requirements of the planning scheme.	

6.2	6.2.11.2 - Rural Residential Zone Code				
Overall Outcomes		Complies Y/N	Comments		
iii.	<ul> <li>C. maintain or improve the structure and condition of drainage lines and riparian areas;</li> <li>D. avoid off-site adverse impacts from stormwater.</li> <li>the development does not result</li> </ul>	Y	The proposed development does		
	in unacceptable impacts on the capacity on the capacity and safety of the external road network;		not unduly impact the external road network. The sub-arterial nature of the road aligns with the intended use of the site.		
iv.	the development ensures the safety, efficiency and useability of access ways and parking areas;	Υ	The proposed use has sufficient area on site to provide adequate car parking and maneuvering on site.		
V.	site works including earthworks are managed to be safe and have minimal impacts on adjoining or adjacent premises, the streetscape or the environment.	Υ	All site works will be conducted in accordance with the requirements of the scheme. No earthworks are required as part of this approval.		
M.	Activities associated with a use do not cause a nuisance by way of aerosols, fumes, light, noise, odour, particles or smoke;	Υ	The proposed use does not generate unduly impacts by way of nuisance to the adjoining land owners.		
N.	Noise generating uses are designed, sited and constructed to minimise the transmission of noise to appropriate levels and do not cause environmental harm or nuisance.	Y	The proposed use, while not significantly noise generating, has been demonstrated that the noise is at an appropriate level to not cause nuisance to the adjoining owners.		
O.	Noise sensitive uses are designed, sited and constructed so as not to be subject to unacceptable levels of noise.	N/A	The proposed development does not include a noise sensitive use.		
P.	Development in a Water supply buffer is undertaken in a manner which contributes to the maintenance and enhancement where possible of water quality to protect the drinking water and aquatic ecosystem environmental values in those catchments.	N/A	The proposed development is not located within a Water Supply Buffer.		
Q.	Development avoids areas subject to constraint, limitation, or environmental value. Where development cannot avoid these identified areas, it responds by: adopting a 'least risk, least impact' approach when designing, siting and locating development in any area subject to a constraint, limitation or				

6.2.11.2 - Rural Residential Zone Code

COORDINATION COMMITTEE MEETING 12 June 2018

**PAGE 18/1288** Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) -DIVISION 1 - A16786356 (Cont.)

6.2.11.2 - Rural Residential Zone Code			
Overall Outcomes	Complies Y/N	Comments	
S. Development in the Rural residential zone does not include one or more of the following:               Transport Depot	N	Transport Depot is listed as a use that is not to be included within the Rural Residential Zone. The proposal triggers assessment against the Strategic Framework.	
T. Development not included in the tables above may be considered on its merits and where it reflects and supports the outcomes of the zone.	N/A	Transport Depot is included within the Table listed in Overall Outcome R. In this, Overall Outcome S is not applicable.	

Based on the assessment above, the proposal is inconsistent with two (2) of the Overall Outcomes of the code(s). Therefore, in accordance with section 1.7.2 of the MBRC Planning Scheme, an assessment against the Strategic Framework is set out in section 2.3.1 of this report.

In addition, section 45 (5) of the Planning Act 2016 states the assessment may be carried out against, or having regard to, any other relevant matter other than a person's personal circumstances, financial or otherwise. The other relevant matters to justify any approval of the proposal, are discussed in section 2.8 of this report.

#### 2.4 Trunk Infrastructure

In accordance with section 4 of the Moreton Bay Regional Council Planning Scheme, the subject site is not located in the identified Priority Infrastructure Area. Infrastructure charges applying to the land, where applicable, are to be applied in accordance the Council's Charges Resolution No. 7 commencing on 11 December 2017 (CR).

#### 2.4.1 Levied Charge

In accordance with section 10 of the CR, a Levied Charge is applicable to the development proposal and has been calculated as shown in the Infrastructure Charges Notice attached to this report taking into consideration any applicable credits or offsets.

# 2.4.2 Levied Charge Credit

In accordance with section 14 of the CR, a credit exists for the development based on the credit being the greater of the following amounts:

#### Payment of previous charges or contributions

There is no record of a previous charge or contribution having been made in relation to the land in accordance with section 14 of the CR. Accordingly, the credit available under this option is \$0.00.

#### Lawful use of land (b)

An assessment of existing and previous lawful uses of the land has determined that a credit amount of \$25,502.31 exists and has been calculated based on the following calculations.

The existing lot is improved by a Dwelling house consisting of three (3) bedrooms. In accordance with CR Schedule 3, the applicable charge for a three (3) bedroom dwelling is \$28,335.90. In accordance with Section 14 of the CR, a Lawful Land use is afforded a credit commensurate with the applicable charge for the corresponding use under Schedule 3.

Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

The credit above is apportioned in accordance with the MBRC/Unitywater Breakup agreement. The property is connected to Water networks only, as such, the applicable credit is 90% MBRC 10% Unitywater.

#### (c) Other development able to occur without a development permit

There is no other development able to be lawfully carried out without a development permit (including a development permit for Building Works). Accordingly, the credit available under this option is \$0.00.

(d) The adopted charge for a residential lot (applied equally to non-residential development). The credit available under this option is \$25,502.31 based on the proportional split stated in Table 3 of the CR.

### 2.4.3 Levied Charge Offset or Refund

The sited is not affected by a Trunk Infrastructure requirement and therefore there is no offset or refund applicable to the development proposal.

#### 2.4.4 Additional Trunk Infrastructure Costs

In accordance with section 130 of the *Planning Act 2016*, an additional payment condition may be imposed if the proposed development;

- (a) generates infrastructure demand of more than what is required to service the type or scale of future development assumed in the LGIP; or
- (b) requires new trunk infrastructure earlier than when identified in the LGIP; or
- (c) is for premises located completely or partly outside the Priority Infrastructure Area; and

The development will impose additional trunk infrastructure costs on Council after taking into account the levied charge and any trunk infrastructure provided, or to be provided by the development.

In this instance, having assessed the proposed development, it does not warrant the imposition of an additional payment condition.

# 2.5 Recording of particular approvals on the MBRC Planning Scheme Not Applicable in this instance.

#### 2.6 Referrals

# 2.6.1 Council Referrals

# 2.6.1.1 Development Engineering

The proposed development seeks to formalise the existing use of the site for industrial equipment (cranes) storage and ancillary office (The site was issued with a show Cause Notice on 24 April 2017). The proposed total use area is 1500m² and includes an existing shed (also containing the ancillary office) and outdoor storage areas.

Access to the proposed development is proposed via the existing site access point from Old Toorbul Point Road and the existing internal driveway and manoeuvring areas.

The existing house on the site is to be retained but does not form part of the proposed development.

The maximum number of heavy vehicle movements to and from the site daily will be 8 per day (4 in / 4 out). Therefore, the site is expected to generate a total of approximately 18 vehicle trips per day with 10 residential related trips.

Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

#### 2.6.1.2 Environmental Health

# Lighting

The development will only be used between 7am and 6pm therefore pedestrian lighting is not required. Security lighting may be used therefore it is recommended that a condition is included to ensure it does not impact the neighbouring properties.

#### Waste Management

Waste management arrangements for this development are adequate and a waste management program is not required. As a consequence the recommendations of this report include a condition that the development be undertaken in accordance with SC 6.20 Planning scheme policy - Waste.

#### Noise

An Environmental Noise Impact Report prepared by Decibell Consulting Pty Ltd dated 13 December 2017, report number 1801305, was submitted in support of the application and determined there will be no intrusive noise to sensitive uses when the activity operates between 7am and 6pm. As a consequence the recommendations of this report include a condition that the development be limited to operate in day time hours.

#### 2.6.2 Referral Agencies

# 2.6.2.1 <u>Concurrence Agencies - Department of Infrastructure, Local Government and Planning</u>

There were no Concurrence Agencies involved in assessing this development application.

### 2.6.2.2 Advice Agencies

There were no Advice Agencies involved in assessing this application.

#### 2.6.2.3 Third Party Agencies

There were no Third Party Agencies involved in assessing this application.

### 2.7 Public Consultation

2.7.1 Public Notification Requirements under the Development Assessment Rules

- (a) Public Notification was served on all adjoining landowners on 14 February 2018.
- (b) The development application was advertised in the Caboolture Herald on 15 February 2018
- (c) A notice in the prescribed form was posted on the relevant land on 15 February 2018 and maintained for a period of 15 business days until 8 March 2018.

#### 2.7.2 Submissions Received

Council received the following types of submissions in respect to this development application.

Туре		Number of Signatures	Number of Submissions
Properly Made	Letter, Email, Fax		2
	Petition	-	0
Not Properly Made	Letter, Email, Fax		0

Report

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

The matters raised within the submission(s) are outlined below:

#### **Assessment of Submissions**

#### Issue - Screening

Concerns were raised that the proposed screening/ fencing was not adequate - particularly regarding the management of visual pollution and noise.

#### Discussion

12 June 2018

The existing site is improved by a detached dwelling house and outbuildings. The site is noted as being bound by a chain wire fence, with established vegetation along each of the common boundaries.

The site is zoned rural residential with the intent of the zone centred around *development* that is characteristically low density (large lots), low intensity of built form and catering for a range of lifestyle choices. It is recognised that a Transport Depot could pose impacts to the visual amenity and characteristics that are predominately associated with low intensity living of the rural residential zoning. As such it is a recommendation of this report that appropriate fencing, in the form of a 1.8m high timber fence, be erected along the eastern boundary for the entire length of proposed use area, commencing at the Old Toorbul Point Road, frontage.

Further, an acoustic report has been submitted in support of the application. The report outlined that there will be no intrusive noise to sensitive uses when the activity operates between 7am and 6pm. As a consequence, the recommendations of this report include a condition that the development be limited to operate in day time hours only.

This is not sufficient grounds for refusal of the application.

# **Comment - Noise**

Comments pertaining to noise generated from Old Toorbul Road were raised.

#### Discussion

The comments made regarding the noise impacts of Old Toorbul Road are acknowledged, however are not pertinent to the assessment of the proposal at hand.

This is not sufficient grounds for refusal of the application

#### **Comment - Zoning**

Comments pertaining to the current zoning of properties along Old Toorbul Road, particularly lots 250 - 318, were raised; it was suggested that Light Industry would be considered more appropriate.

#### Discussion

The comments made regarding the rezoning of properties along Old Toorbul Road are acknowledged, however are not pertinent to the assessment of the proposal at hand.

This is not sufficient grounds for refusal of the application

#### **Comment - Property Values**

Comments were included as to whether property values of adjoining property were considered in the assessment.

#### Discussion

Property values is not an aspect of development that is regulated under the Planning Scheme.

This is not sufficient grounds for refusal of the application

ITEM 2.1 DA/34696/2017/V2N - MATERIAL CHANGE OF USE - DEVELOPMENT PERMIT FOR TRANSPORT DEPOT AND ANCILLARY OFFICE - 310 OLD TOORBUL POINT ROAD, CABOOLTURE (LOT 48 RP 197137) - DIVISION 1 - A16786356 (Cont.)

# 2.7.3 Notice of Compliance

The Notice of Compliance was received by Council on 9 March 2018. The Notice of Compliance identifies that the public notification requirements for the development application were correctly undertaken in accordance with the requirements of Part 4, of the Development Assessment Rules.

#### 2.8 Other Matters

None identified.

# 3. Strategic Implications

# 3.1 Legislative/Legal Implications

The applicant (and submitter/s) have appeal rights in accordance with the Planning Act 2016.

#### 3.2 Corporate Plan / Operational Plan

Creating Opportunities: Well-planned growth - a sustainable and well-planned community.

#### 3.3 Policy Implications

The proposal is consistent with the existing Moreton Bay Region planning provisions and relevant policies.

#### 3.4 Risk Management Implications

Development occurs efficiently and effectively in the region in a manner that reduces the potential risk implications to Council and the community.

#### 3.5 Delegated Authority Implications

There are no delegated authority implications arising as a direct result of this report.

# 3.6 Financial Implications

- In the event that an appeal is made to the Planning & Environment court against Council's decision, the Council will incur additional costs in defending its position.
- b) Permit conditions require infrastructure contributions to Council.

#### 3.7 Economic Benefit

The proposal will generate employment opportunities within the region.

#### 3.8 Environmental Implications

There are no environmental implications arising from this development application.

#### 3.9 Social Implications

There are no social implications arising from this development application.

#### 3.10 Consultation / Communication

Refer to clause 2.7.

### **ATTENDANCE**

Ms Kate Isles, Mr Tom Auckland and Mr Stewart Pentland left the meeting at 10.45am after consideration of Item 2.1.

# **3 CORPORATE SERVICES SESSION**

(Cr M Constance)

# **ITEM 4.1 EVERTON HILLS - CAMELIA AVENUE - ROAD REHABILITATION - DIVISION 10**

4 ASSET CONSTRUCTION & MAINTENANCE Meeting / Session:

A16952950: 4 June 2018 - Refer Confidential Supporting Information Reference:

A16888193

Responsible Officer: SAM, Principal Engineer (ECM Project Management & Construction)

#### **Executive Summary**

Tenders were invited for the 'Everton Hills - Camelia Avenue - Road Rehabilitation (MBRC007382)' project. The tender closed on 2 May 2018, with a total of six conforming tenders received.

It is recommended that Council award the contract to Ryan Civil Contracting Pty Ltd for the sum of \$1,331,427.88 (excluding GST) as this tender was evaluated as representing the best overall value to Council.

#### **COMMITTEE RECOMMENDATION**

**Moved by Cr Matt Constance** Seconded by Cr Mike Charlton (Deputy Mayor)

CARRIED 11/0

That the tender for 'Everton Hills - Camelia Avenue - Road Rehabilitation (MBRC007382)' be awarded to Ryan Civil Contracting Pty Ltd for the sum of \$1,331,427.88 (excluding GST).

ITEM 4.1 EVERTON HILLS - CAMELIA AVENUE - ROAD REHABILITATION - DIVISION 10 - A16952950 (Cont.)

#### OFFICER'S RECOMMENDATION

That the tender for 'Everton Hills - Camelia Avenue - Road Rehabilitation (MBRC007382)' be awarded to Ryan Civil Contracting Pty Ltd for the sum of \$1,331,427.88 (excluding GST).

#### REPORT DETAIL

#### 1. Background

The project involves the pavement rehabilitation and resurfacing of Camelia Avenue, from Drosera Street to Pavonia Street, Everton Hills; as well as the pavement resurfacing of Camelia Avenue, between Mirabella Street and Drosera Street, Everton Hills. The project also includes on-road cycle facilities, pedestrian pathway linkages, traffic safety initiatives such as kerb build outs, the provision of street tree planting (to improve visual amenity and to provide shade) and drainage improvements.

Figure 1: Location plan - Everton Hills - Camelia Avenue - road rehabilitation

#### 2. Explanation of Item

Tenders for the 'Everton Hills - Camelia Avenue - Road Rehabilitation (MBRC007382)' project closed on 2 May 2018 with a total of six conforming tenders received. The tenders were assessed by the assessment panel in accordance with Council's Purchasing Policy and the selection criteria as set out in the tender documents.

All tenderers and their evaluation scores are tabled below (ranked from highest to lowest):

RANK	TENDERER	<b>EVALUATION SCORE</b>
1	Ryan Civil Contracting Pty Ltd	98.05
2	Hazell Bros QLD Pty Ltd	97.24
3	Civlec Pty Ltd t/a GRC Civil	89.80

Report

#### ITEM 4.1 EVERTON HILLS - CAMELIA AVENUE - ROAD REHABILITATION - DIVISION 10 - A16952950 (Cont.)

RANK	TENDERER	<b>EVALUATION SCORE</b>
4	Stanley Macadam Pty Ltd T/A Stanley Road Construction	84.03
5	Shamrock Civil Engineering Pty Ltd	83.19
6	Bellwether Contractors Pty Ltd	81.33

Ryan Civil Contracting Pty Ltd submitted a detailed tender and demonstrated their experience on projects of a similar scale and complexity. At a tender clarification meeting held on 17 May 2018, Ryan Civil Contracting provided their construction methodology with staging; confirmed an overall project duration of seven weeks (including an allowance of 5 days for wet weather) and demonstrated a strong understanding of all the project requirements.

Hazell Bros QLD Pty Ltd submitted a comprehensive tender and demonstrated their construction methodology and experience on projects of a similar scale and complexity. The tendered construction program of works was of six weeks' duration; however, Hazell Bros advised they could not start the works until their contract for Dohles Rocks Road was completed. There were no additional benefits for the higher price.

Civlec Pty Ltd t/a GRC Civil submitted a satisfactory tender and demonstrated their construction experience on projects of a similar scale and complexity. There were no additional benefits for the higher price.

#### 3. Strategic Implications

#### 3.1 Legislative/Legal Implications

Due to value of work being greater than \$200,000, Council called a public tender for the work through the LG Tender system in accordance with the Local Government Act 2009.

#### 3.2 Corporate Plan / Operational Plan

This project is consistent with the Corporate Plan outcome - Valuing Lifestyle: Diverse transport options - an integrated regional transport network.

#### 3.3 Policy Implications

This project has been procured in accordance with the provisions of the following documents:

- Council's Procurement Policy 10-2150-006
- Local Government Act 2009
- Local Government Regulation 2012 Chapter 6.

#### 34 **Risk Management Implications**

The project risk has been assessed and the following issues identified. The manner in which the possible impact of these risks are managed is detailed below.

#### Financial Risks:

A third-party review of financial status has been carried out and the recommended tenderer was rated 'satisfactory'. The construction works were originally designed, estimated and budgeted to be done as day works; however, through consultation, it was determined that the works should be done as night works and during the winter months, and these conditions were included in the advertised tender.

#### Construction Risks:

- The contractor will provide a program of works, traffic management plan, and safety plan and will be required to fence off the areas where construction is being undertaken to meet relevant workplace health and safety requirements as part of the contract, including safe work method statements.
- b. The contractor has demonstrated their understanding of constructability challenges and their technical capability to complete the works.

Report

ITEM 4.1 EVERTON HILLS - CAMELIA AVENUE - ROAD REHABILITATION - DIVISION 10 - A16952950 (Cont.)

c. It was identified that works on the road were needed to be undertaken as night works to reduce impacts on traffic and to improve productivity. The contractor has provided a methodology and demonstrated their understanding that all works will be carried out at night and that one lane in each direction will be open during the project works.

#### 3.5 Delegated Authority Implications

There are no delegated authority implications arising as a direct result of this report.

#### 3.6 Financial Implications

Council has identified a total of \$1,157,000 (excluding GST) in the 2018/19 Capital Projects Program for this project (\$1,060,000 (excluding GST) for road rehabilitation component (101497) and \$97,000 (excluding GST) for the road resurfacing component 105706).

Contingency 10% \$ 130,000.00	QLeave Total Project Cost	\$ 6,500.00  \$ 1,467,927.88
	Contingency 10% QLeave	\$ 130,000.00 \$ 6,500.00

Estimated ongoing operational/maintenance costs are \$1,500 per F/Y.

The budget amount for this project is insufficient. Additional funds (\$311,000) will be required at the 2018/19 quarter one budget review.

#### 3.7 Economic Benefit

The project will address surface issues and extend the life of the road pavement and reduce maintenance costs associated with the section of road.

#### 3.8 Environmental Implications

An Environmental Management Plan will be provided to Council by the successful tenderer, detailing the management of environmental matters affecting the project during construction.

#### 3.9 Social Implications

The project, once completed, will improve the safety and operation of Camelia Avenue, Everton Hills for users.

#### 3.10 Consultation / Communication

A communications plan, outlining the construction timelines and night works for communicating with business on the western side and affected residents, is being prepared and will be discussed with the Divisional Councillor.

The rehabilitation and resurfacing works will be undertaken in stages. Affected residents will be notified of the planned works and expected construction timeframe two weeks prior to the actual commencement of works.

The use of Variable Message Boards, project notices and project signs will be distributed prior (two weeks) to any site works. Residents directly affected by the staged works will be provided with minimum weekly updates of project progress by the Council's project manager to inform on progress.

## **6 LIFESTYLE & AMENITY SESSION**

(Cr D Sims)

## ITEM 6.1 KOALA MONITORING SERVICES PHASE 3 - THE MILL AT MORETON BAY -DIVISION 7

Meeting / Session: 6 LIFESTYLE & AMENITY Reference: A16748468: 31 May 2018

Responsible Officer: RM, Manager Environmental Services (CES Environmental Services)

#### **Executive Summary**

Council acquired the former Petrie Paper Mill site, now known as *The Mill at Moreton Bay* for a university campus and associated community development. The site includes areas of koala bushland habitat which will be impacted by the intended site development however, Council has committed to deliver a net gain in environmental values across the site by establishing additional koala bushland habitat and ensuring koala safety during the construction phase.

As part of the site's development, Council needed to engage a service provider with specialist expertise to develop and undertake a koala monitoring program, to ensure the safety of the koala population during periods of construction. Due to the specialist nature of these services there is only one supplier, Endeavour Veterinary Ecology Pty Ltd (EVE), with the experience and specialist knowledge to deliver the services sought.

EVE completed phase 1 of the koala monitoring program between March 2017 and June 2017. Phase 2 of the program concludes on 30 June 2018. Phase 3 of the koala monitoring program will commence on 1 July 2018 for a period of two years. An exemption is required under Section 235(b) of the Local Government Regulation 2012 to enable EVE to be contracted for these services.

### **COMMITTEE RECOMMENDATION**

Moved by Cr Mike Charlton (Deputy Mayor)
Seconded by Cr Adrian Raedel

CARRIED 11/0

- 1. That in accordance with section 235(b) of the Local Government Regulation 2012, Council is satisfied that because of the specialised nature of the services to be provided it would be impractical or disadvantageous for the Council to invite quotes or tenders for the services.
- 2. That Council engage Endeavour Veterinary Ecology Pty Ltd to implement phase 3 of the koala monitoring program for *The Mill at Moreton Bay* site between 1 July 2018 and 30 June 2020.
- 3. That a copy of this report be sent to the local state members and local Koala Groups for information.

PAGE 18/1298 Report

DU//0/0N 7 A 40740 400

ITEM 6.1 KOALA MONITORING SERVICES PHASE 3 - THE MILL AT MORETON BAY - DIVISION 7 - A16748468 (Cont.)

#### OFFICER'S RECOMMENDATION

- That in accordance with section 235(b) of the Local Government Regulation 2012, Council is satisfied
  that because of the specialised nature of the services to be provided it would be impractical or
  disadvantageous for the Council to invite quotes or tenders for the services.
- 2. That Council engage Endeavour Veterinary Ecology Pty Ltd to implement phase 3 of the koala monitoring program for *The Mill at Moreton Bay* site between 1 July 2018 and 30 June 2020.

#### REPORT DETAIL

#### Background

In March 2017, as part of the development of *The Mill at Moreton Bay* site at Petrie, Council engaged the services of EVE to implement a koala monitoring program.

The following resolution appears on Minute Page 17/392 of the General Meeting of Council held 21 March 2017:

#### Ex. Coordination Committee Meeting held 21 March 2017 (MP17/409)

#### COMMITTEE RECOMMENDATION

- That in accordance with section 235(b) of the Local Government Regulation 2012, Council is satisfied
  that because of the specialised nature of the services to be provided it would be impractical or
  disadvantageous for the Council to invite quotes or tenders for the services.
- 2. That Council engage Endeavour Veterinary Ecology Pty Ltd to develop and implement a two-phase koala monitoring program for *The Mill at Moreton Bay* site.
- That details and costs of phase two of the program be the subject of a further report to council.

Phase 1 (March to June 2017) involved an intensive site assessment to identify and tag all koalas on *The Mill at Moreton Bay* site. During phase 1, EVE identified 45 koalas which were health checked and fitted with telemetry devices for monitoring purposes.

The following resolution appears on Minute Page 17/1249 of the General Meeting of Council held 27 June 2017:

#### Ex. Coordination Committee Meeting held 27 June 2017 (MP 17/1351)

### COMMITTEE RECOMMENDATION

- 1. That in accordance with section 235(b) of the Local Government Regulation 2012, Council is satisfied that because of the specialised nature of the services to be provided it would be impractical or disadvantageous for the Council to invite quotes or tenders for the services.
- 2. That Endeavour Veterinary Ecology Pty Ltd be engaged to implement phase 2 of the koala monitoring program for *The Mill at Moreton* Bay site between 1 July 2017 and 30 June 2018.
- 3. That a copy of this report be sent to all Koala Groups within the region.

Report

ITEM 6.1 KOALA MONITORING SERVICES PHASE 3 - THE MILL AT MORETON BAY - DIVISION 7 - A16748468 (Cont.)

Phase 2 of the koala monitoring program commenced on 1 July 2017 for a period of 12 months and involved ongoing koala monitoring and associated veterinary health assessments and treatment. EVE provides monthly reports to Council detailing outcomes and related costs. EVE continues to successfully deliver the koala monitoring program across the project site, assisting to ensure that no koalas are injured or killed as a result of construction works.

As at 28 May 2018, 56 koalas have been fitted with telemetry devices and are being monitored. In addition, there are 15 dependent joeys that will join the program when they become independent at approximately 12 months of age.

#### 2. Explanation of Item

The operational and construction works across the project site will continue for at least the next two years. To support the ongoing health and safety of the koalas at *The Mill at Moreton Bay* site it is proposed to continue the koala monitoring program.

Under the provisions of the Local Government Regulation 2012, Council may enter into a contract with a provider where Council is satisfied that because of the specialist nature of the services to be provided, it would be impractical or disadvantageous for Council to seek quotes for the services.

EVE has successfully delivered phases 1 and 2 of the koala monitoring program at *The Mill at Moreton Bay* site. This report recommends that EVE be engaged to implement phase 3 of the koala monitoring program between 1 July 2018 and 30 June 2020, facilitating the delivery of Council's koala safety commitments.

#### 3. Strategic Implications

#### 3.1 Legislative/Legal Implications

Section 235(b) of the Local Government Regulation 2012 provides that Council may enter into a medium-sized contractual arrangement or large-sized contractual arrangement without first inviting written quotes or tenders if Council resolves that, because of the specialised or confidential nature of the services that are sought, it would be impractical or disadvantageous for Council to invite quotes or tenders.

#### 3.2 Corporate Plan / Operational Plan

Valuing Lifestyle: Healthy natural environment - a clean and healthy environment.

#### 3.3 Policy Implications

Council's Procurement Policy 2150-006 allows the consideration of exceptions permitted under the Local Government Regulation 2012.

#### 3.4 Risk Management Implications

EVE has specialist knowledge and experience in delivering successful koala monitoring programs within the Moreton Bay Region and specifically on *The Mill at Moreton Bay* site. In addition, EVE has the required animal handling and animal ethics approvals issued by the State Government.

The use of an experienced and specialist koala services contractor will assist in identifying and appropriately managing koala safety risks during construction activities.

#### 3.5 Delegated Authority Implications

There are no delegated authority implications arising as a direct result of this report.

## 3.6 Financial Implications

\$1.2 million has been allocated in 2018/2019 budget (project number 105057) for year 1 of phase 3 of the koala monitoring program. This includes funds for veterinary health assessments and treatments and the tagging and monitoring of new koala joeys.

Report

ITEM 6.1 KOALA MONITORING SERVICES PHASE 3 - THE MILL AT MORETON BAY - DIVISION 7 - A16748468 (Cont.)

### 3.7 Economic Benefit

There are no economic benefit implications arising as a direct result of this report.

#### 3.8 Environmental Implications

It is considered that EVE has the specialist expertise to undertake a koala monitoring program to ensure the safety of the koala population during periods of construction. Continuity of the koala monitoring program will underline Council's commitment to koala safety and conservation measures.

#### 3.9 Social Implications

There are no social implications arising as a direct result of this report.

ITEM 6.2 2017/2018 COMMUNITY GRANTS PROGRAM ROUND 2 - REGIONAL - A17025573 (Cont.)

#### OFFICER'S RECOMMENDATION

That the Round Two Community Grants Program funding recommendations as detailed in the Supporting Information to this report be approved.

#### REPORT DETAIL

#### 1. Background

Council's Community Grants Program is comprised of six grants that aim to develop and support organisations and individuals to positively contribute to the region's community wellbeing, environmental sustainability, economic prosperity and cultural life (see Table 1).

#### **Table 1: Community Grants Program**

	Grants		
1	Community Facilities Grant		
2	Community Activities Grant		
3	Community Organisation Equipment Grant		
4	Community Organisation Development Grant		
5	Regional Arts Development Fund (RADF)		
6	Individual Achievement Grant		

#### 2. Explanation of Item

Applications under Round 2 of Council's 2017/18 Community Grants Program (excluding the Individual Achievement Fund) were invited from eligible community organisations from 1 February 2018 to 31 March 2018. Individuals wishing to apply under the Individual Achievement Fund can apply at any time during the year.

A total of 177 applications were received from community organisations and individuals throughout the region. All applications received were subject to the following three-stage assessment process:

## 1. Pre-Eligibility Check

 All applications were checked to determine applicant and project eligibility, and to ensure that they were complete and/or submitted under the correct grant.

#### 2. Panel Assessment

- An internal assessment panel comprising senior officers assessed applications for the following grants:
  - Community Facilities Grant;
  - Community Activities Grant;
  - Community Organisation Equipment Grant; and
  - Community Organisation Development Grant.

ITEM 6.2 2017/2018 COMMUNITY GRANTS PROGRAM ROUND 2 - REGIONAL - A17025573 (Cont.)

- RADF applications were assessed by a panel of assessors comprising of one suitably qualified Council officer, and two external community representatives.
  - Applications were assessed by the panels against the following criteria:
    - Community need;
    - Community benefit;
    - Value for money; and
    - Capacity to deliver.

#### 3. Decision Making

 Assessment scores were totalled within each grant to provide a ranking of all applications and recommendations for funding.

As a result of the Round 2 assessment process, a total of 66 (37.2%) applications (including 11 RADF applications) with a total funding value of \$313,225.71 have been recommended for funding.

#### 3. Strategic Implications

#### 3.1 Legislative/Legal Implications

Council's Community Grants Program is administered in accordance with the *Local Government Act* 2009 and the Local Government Regulation 2012.

#### 3.2 Corporate Plan / Operational Plan

Strengthening Communities: Healthy and supportive communities - Develop a strong and inclusive community.

#### 3.3 Policy Implications

Council's Community Grants Program is administered in accordance with its Community Grants Policy (2150-030)

#### 3.4 Risk Management Implications

There are no risk management implications arising as a direct result of this report.
