Sports Governance

The Department of Tourism and Sport have released a new comprehensive platform filled with resources and training for sport and recreation clubs. It is designed to help volunteers, improve club operations and uplift communities throughout Queensland. The information contained in the resources are beneficial regardless of whether your organisation is a sport or community service provider.

Clubiq: Support And Development For Clubs

The Australian Sports Commission (ASC) is focused on improving the capability of sporting organisations to create an effective and sustainable national sport sector. The ASC supports club development through its free online platform, Game Plan, for Queensland Sport and Recreation clubs and facilities.

Game Plan is a free online platform that allows sporting clubs of all sizes to get insights into their current capability in key areas of club administration, then supports ongoing club development with a suite of tools.

Clubs assess and evaluate their own environment, identifying their unique strengths and potential areas for improvement.

Volunteers are the heart of every club. Game Plan makes it easy for club leaders to assess and analyse information about holistic club operations, to make good immediate decisions whilst developing clear plans for the club's future.

Over 3,000 Australian sporting clubs across 78 different sports are gaining key development and capability growth through their use of Game Plan.
